SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2022

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-35159

THERMON GROUP HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

27-2228185

(I.R.S. Employer Identification No.)

7171 Southwest Parkway, Building 300, Suite 200, Austin, Texas 78735

(Address of principal executive offices) (zip code)

(512) 690-0600

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, \$0.001 par value per share	THR	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.
 Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 2, 2022, the registrant had 33,493,234 shares of common stock, par value \$0.001 per share, outstanding.

Thermon Group Holdings, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited)
(Dollars in thousands, except share and per share data)

1. Basis of Presentation

Thermon Group Holdings, Inc. and its direct and indirect subsidiaries are referred to collectively as “we,” “our,” or the “Company” herein. We are one of the largest providers of highly engineered industrial process heating solutions for process industries. We offer a full suite of products (heating units, heating cables, temporary power solutions, tubing bundles, industrial heating blankets and chillers), services (engineering, installation and maintenance services) and software (design optimization and wireless and network control systems) required to deliver comprehensive solutions to some of the world's largest and most complex projects.

Our condensed consolidated financial statements are prepared in conformity with generally accepted accounting principles in the United States (“GAAP”) and the requirements of the United States Securities and Exchange Commission (“SEC”) for interim financial information. Accordingly, the accompanying condensed consolidated financial statements do not include all disclosures required for full annual financial statements and should be read in conjunction with our audited consolidated financial statements and notes thereto for the fiscal year ended March 31, 2022 (“fiscal 2022”). In our opinion, the accompanying condensed consolidated financial statements reflect all adjustments considered necessary to present fairly our financial position at September 30, 2022 and March 31, 2022, and the results of our operations for the three and six months ended September 30, 2022 and 2021. Certain prior year amounts have been reclassified to conform with the current year's presentation.

Impact of the COVID-19 Pandemic and General Economic Environment

The COVID-19 pandemic and the measures being taken to address and limit the spread of the virus have adversely affected the economies and financial markets of many countries, resulting in an economic downturn that negatively impacted, and may continue to negatively impact, global demand for our products and services. We are still experiencing effects of lockdowns in certain parts of Asia, which are impacting our results in our Asia-Pacific (“APAC”) segment. The effect of loosening pandemic restrictions outside of APAC, along with pent-up demand from periods of stagnant lockdown and uncertainty have combined to strengthen customer demand from most regions we serve, especially in North America. During periods of the pandemic we have experienced, and may experience in the future, a decline in the demand of our products and services or disruptions in raw materials or labor required for manufacturing that has in the past, and may in the future, materially and negatively impact our business, financial condition, results of operation and overall financial performance. We have experienced increased costs across our global supply chain as we focus on meeting growing demand from our customers. In certain circumstances, we have had issues with a lack of availability of certain raw materials as well as increases in costs of our raw materials due to: use of alternate suppliers, higher freight costs, increased lead times, and expedited shipping. We have also had to increase our inventory of certain items to ensure availability in the face of supply chain disruptions. We continue to monitor the pandemic restrictions and other effects the pandemic may have on our business.

On April 11, 2020, the Canadian government officially enacted the Canadian Emergency Wage Subsidy (the “CEWS”) for the purposes of assisting employers in financial hardship due to the COVID-19 pandemic and of reducing potential layoffs of employees.

We recorded no transactions related to CEWS for the three and six months ended September 30, 2022. We recorded \$47 and \$1,248 related to CEWS to “Cost of sales” in our condensed consolidated statement of operations for the three and six months ended September 30, 2021. We recorded \$186 and \$500 related to CEWS to “Selling, general and administrative expenses” in our condensed consolidated statement of operations for the three and six months ended September 30, 2021. We anticipate no benefit from the CEWS program in the fiscal year ending March 31, 2023 (“fiscal 2023”) as the program ended in October 2021.

Use of Estimates

Generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. While management has based its assumptions and estimates on the facts and circumstances existing at September 30, 2022, actual results could differ from those estimates and affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities and the corresponding revenues and expenses as of the date of the financial statements. The operating results for the three and six months ended September 30, 2022 are not necessarily indicative of the results that may be achieved for fiscal 2023.

Restricted Cash and Cash Equivalents

The Company maintains restricted cash related to certain letter of credit guarantees and performance bonds securing performance obligations. The following table provides a reconciliation of cash, cash equivalents, and restricted cash included in prepaid expenses and other current assets and restricted cash included in other non-current assets reported within the condensed consolidated balance sheets that sum to the total of the same such amounts shown in the statements of cash flows.

	September 30, 2022	September 30, 2021
Cash and cash equivalents	\$ 31,866	\$ 38,242
Restricted cash included in prepaid expenses and other current assets	2,655	2,745
Restricted cash included in other non-current assets	24	349
Total cash, cash equivalents, and restricted cash shown in the statements of cash flows	<u>\$ 34,545</u>	<u>\$ 41,336</u>

Amounts shown in restricted cash included in prepaid expenses and other current assets and other non-current assets represent those required to be set aside by a contractual agreement, which contain cash deposits pledged as collateral on performance bonds and letters of credit. Amounts shown in restricted cash in other non-current assets represent such agreements that require a commitment term longer than one year.

Recent Accounting Pronouncements

Business Combinations - In October 2021, the FASB issued Accounting Standards Update, ("ASU") 2021-08 - *Accounting for Contract Assets and Contract Liabilities from Contracts with Customers* (ASC 805). ASU 2021-08 requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities (deferred revenue) from acquired contracts using the revenue recognition guidance in Topic 606. Under this "Topic 606 approach," the acquirer applies the revenue model as if it had originated the contracts. This is a departure from the current requirement to measure contract assets and contract liabilities at fair value. The ASU is effective for all public business entities in annual and interim periods starting after December 15, 2022, and early adoption is permitted. We are still evaluating this ASU and will consider early adoption with future acquisitions, if any.

2. Acquisition

Powerblanket

On May 31, 2022 (the "Acquisition Date"), Thermon Holding Corp., as buyer, acquired 100% of the issued and outstanding equity interests of Powerblanket ("Powerblanket") from Glacier Capital LLC, as seller (the "Acquisition"). Powerblanket is a leading North American supplier of heated blankets built upon patented heat spreading technology and portable industrial chillers. The Acquisition increases our exposure to growing industrial and commercial end-markets through its freeze protection, temperature control and flow assurance solutions. We have integrated Powerblanket into our United States and Latin America ("US-LAM") reportable segment. From the period May 31, 2022 to September 30, 2022, Powerblanket contributed \$3,967 in Sales and \$(698) in Net income/(loss) to our consolidated operating results.

The initial purchase price for the Acquisition was \$35,000, subject to an adjustment for net working capital acquired at closing. Subsequent to the Acquisition Date, and commensurate with the purchase agreement, we increased the purchase price by \$299 for net working capital acquired. We financed the Acquisition through the use of our revolving credit facility as well as cash on hand. Powerblanket's revenue structure does not result in material contract assets or liabilities.

Acquisition Costs

In accordance with GAAP, costs incurred to complete the Acquisition are expensed as incurred. Total acquisition costs, which represent transaction costs, legal fees, and third-party professional fees were \$403, of which \$251 were incurred in the six months ended September 30, 2022. No acquisition costs were incurred in the three months ended September 30, 2022. Acquisition costs are reflected in "Selling, general and administrative expenses" in our condensed consolidated statement of operations and comprehensive income/(loss).

Purchase Price Allocation

We have accounted for the Acquisition according to the business combinations guidance found in ASC 805 - *Business Combinations*, henceforth referred to as acquisition accounting. Acquisition accounting requires, among other things, that assets acquired and liabilities assumed be recognized at their fair values as of the acquisition date. We used primarily Level 2 inputs to allocate the purchase price to the major categories of assets and liabilities shown below, with the exception of the contract-based intangible asset, which was valued using Level 3 inputs. The carrying values of inventories, property, plant and equipment as well as leased assets approximated their respective fair values. During the measurement period, if new information is obtained about facts and circumstances that existed as of the Acquisition Date that, if known, would have resulted in revised estimated values of those assets or liabilities as of that date, we will revise the preliminary purchase price

allocation. The effect of measurement period adjustments to the estimated fair values will be reflected as if the adjustments had been completed on the Acquisition Date. The impact of all changes that do not qualify as measurement period adjustments will be included in current period earnings.

Purchase Price Allocation

	Amortization Period (years)	Fair Value
Accounts receivable		\$ 1,267
Inventories		3,545
Property, plant and equipment		391
Other current assets		290
Other non-current assets		954
Intangibles:		
Customer relationships	9.8	3,301
Trademarks	9.8	3,397
Contract-based	5.0	1,280
Developed technology	15.8	5,189
Goodwill		18,620
Total fair value of assets acquired		\$ 38,234
Accounts payable		(1,098)
Accrued liabilities		(637)
Other liabilities		(1,200)
Total fair value of liabilities acquired		\$ (2,935)
Purchase Price		\$ 35,299

Unaudited Pro Forma Financial Information

The following unaudited pro forma results of operations assume that the Acquisition occurred at the beginning of the periods presented. These unaudited pro forma results are presented for informational purposes only and are not necessarily indicative of what the actual results of operations would have been if the Acquisition had occurred at the beginning of the periods presented, nor are they indicative of future results of operations. The pro forma results presented below are adjusted for the removal of acquisition and other related costs of \$286 which were incurred in our first fiscal quarter ended June 30, 2022.

<i>in thousands, unaudited</i>	Three Months Ended September 30, 2022	Three Months Ended September, 30, 2021	Six Months Ended September 30, 2022	Six Months Ended September, 30, 2021
Sales	\$ 100,557	\$ 84,401	\$ 197,863	\$ 157,990
Net Income/(loss)	10,984	1,221	17,257	814

3. Fair Value Measurements

Fair Value

We measure fair value based on authoritative accounting guidance, which defines fair value, establishes a framework for measuring fair value, and expands on required disclosures regarding fair value measurements.

Inputs are referred to as assumptions that market participants would use in pricing the asset or liability. The use of inputs in the valuation process are categorized into a three-level fair value hierarchy.

- Level 1 — uses quoted prices in active markets for identical assets or liabilities we have the ability to access.
- Level 2 — uses observable inputs other than quoted prices in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 — uses one or more significant inputs that are unobservable and supported by little or no market activity, and that reflect the use of significant management judgment.

Financial assets and liabilities with carrying amounts approximating fair value include cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and other current liabilities. The carrying amount of these financial assets and liabilities approximates fair value because of their short maturities. At September 30, 2022 and March 31, 2022, no

assets or liabilities were valued using Level 3 criteria, except for those acquired in our recent acquisition of Powerblanket, discussed in Note 2, "Acquisition."

Information about our long-term debt that is not measured at fair value is as follows:

	September 30, 2022		March 31, 2022		Valuation Technique
	Carrying Value	Fair Value	Carrying Value	Fair Value	
Financial Assets					
Deferred compensation plan assets	\$ 5,521	\$ 5,521	\$ 5,391	\$ 5,391	Level 1 - Active Markets
Foreign currency contract forwards assets	—	—	105	105	Level 2 - Market Approach
Financial Liabilities					
Outstanding borrowings from revolving line of credit	\$ 29,000	\$ 29,000	\$ —	\$ —	Level 1 - Active Markets
Outstanding principal amount of senior secured credit facility	114,539	113,966	129,000	128,355	Level 2 - Market Approach
Deferred compensation plan liabilities	4,938	4,938	4,837	4,837	Level 1 - Active Markets
Foreign currency contract forwards liabilities	46	46	—	—	Level 2 - Market Approach

At September 30, 2022 and March 31, 2022, the fair value of our long-term debt is based on market quotes available for issuance of debt with similar terms. As the quoted price is only available for similar financial assets, the Company concluded the pricing is indirectly observable through dealers and has been classified as Level 2.

Additionally, we acquired certain assets and liabilities as disclosed in Note 2, "Acquisition" at fair value according to purchase price accounting

Deferred Compensation Plan

The Company provides a non-qualified deferred compensation plan for certain highly compensated employees where payroll contributions are made by the employees on a pre-tax basis. Included in "Other non-current assets" in the condensed consolidated balance sheets at September 30, 2022 and March 31, 2022 were \$5,521 and \$5,391, respectively, of deferred compensation plan assets held by the Company. Deferred compensation plan assets (mutual funds) are measured at fair value on a recurring basis based on quoted market prices in active markets (Level 1). The Company has a corresponding liability to participants of \$4,938 and \$4,837 included in "Other non-current liabilities" in the condensed consolidated balance sheets at September 30, 2022 and March 31, 2022, respectively. Deferred compensation plan expense/(income) is included as such in the condensed consolidated statement of operations, and therefore is excluded from "Selling, general and administrative expenses." Deferred compensation plan expense/(income) was \$(303) and \$(14) for the three months ended September 30, 2022 and 2021, respectively, and \$(963) and \$318 for the six months ended September 30, 2022 and 2021, respectively. Expenses and income from our deferred compensation plan were offset by unrealized gains and losses for the deferred compensation plan included in "Other income/expense" on our condensed consolidated statements of operations and comprehensive income/(loss). Our unrealized losses and (gains) on investments were \$296 and \$20, respectively, for the three months ended September 30, 2022 and 2021, respectively, and \$934 and \$(306) for the six months ended September 30, 2022 and 2021, respectively.

Trade Related Foreign Currency Forward Contracts

We transact business in various foreign currencies and have established a program that primarily utilizes foreign currency forward contracts to address the risk associated with the effects of certain foreign currency exposures. Under this program, increases or decreases in our foreign currency exposures are offset by gains or losses on the forward contracts to mitigate foreign currency transaction gains or losses. These foreign currency exposures arise from intercompany transactions as well as third party accounts receivable or payable that are denominated in foreign currencies. Our forward contracts generally have terms of 30 days. We do not use forward contracts for trading purposes or designate these forward contracts as hedging instruments pursuant to ASC 815. We adjust the carrying amount of all contracts to their fair value at the end of each reporting period and unrealized gains and losses are included in "Other income/expense" on our condensed consolidated statements of operations and comprehensive income/(loss). These gains and losses are designed to offset gains and losses resulting from settlement of receivables or payables by our foreign operations which are settled in currency other than the local transactional currency. The fair value is determined by quoted prices from active foreign currency markets (Level 2). Fair value amounts for such forward contracts on our condensed consolidated balance sheets are either classified as accounts receivable, net or accrued

liabilities depending on whether the forward contract is in a gain (accounts receivable, net) or loss (accrued liabilities) position. Our ultimate realized gain or loss with respect to currency fluctuations will depend on the currency exchange rates and other factors in effect as the contracts mature. As of September 30, 2022 and March 31, 2022, the notional amounts of forward contracts were as follows:

Notional amount of foreign currency forward contracts by currency

	September 30, 2022	March 31, 2022
Euro	\$ 1,000	\$ —
Canadian Dollar	—	4,000
South Korean Won	2,000	2,250
Australian Dollar	—	1,000
Japanese Yen	300	—
Total notional amounts	<u>\$ 3,300</u>	<u>\$ 7,250</u>

Foreign currency gains or losses related to our forward contracts in the accompanying condensed consolidated statements of operations and comprehensive income/(loss) were losses of \$(252) and gains of \$41 in the three months ended September 30, 2022 and 2021, respectively, and losses of \$(612) and \$(225) for the six months ended September 30, 2022 and 2021, respectively. Gains and losses from our forward contracts were offset by transaction gains or losses incurred with the settlement of transactions denominated in foreign currencies. For the three months ended September 30, 2022 and 2021, our net foreign currency transactions resulted in losses of \$(37) and \$(350), respectively, and losses of \$(333) and \$(686) in the six months ended September 30, 2022 and 2021.

4. Restructuring and Other Charges/(Income)

Fiscal 2023 charges/(income)

We have not recorded any restructuring charges/(income) in fiscal 2023.

Fiscal 2022 charges/(income)

We recorded \$(103) for severance-related activity in our Canadian segment, which was recorded to "Restructuring and other charges/(income)" in our condensed consolidated statements of operations and comprehensive income/(loss). Additionally, we recorded \$(311) in cash receipts related to receivables existing prior to the sale of our South Africa business, which was completed in fiscal 2021.

Restructuring and other charges/(income) by reportable segment were as follows:

	Three Months Ended September 30, 2022	Three Months Ended September 30, 2021	Six Months Ended September 30, 2022	Six Months Ended September 30, 2021
United States and Latin America	\$ —	\$ —	\$ —	\$ (46)
Canada	—	—	—	(186)
Europe, Middle East and Africa	—	—	—	(182)
Asia-Pacific	—	—	—	—
	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (414)</u>

5. Net Income/(Loss) per Common Share

The reconciliations of the denominators used to calculate basic and diluted net income/(loss) per common share for the three and six months ended September 30, 2022 and 2021, respectively, are as follows:

	Three Months Ended September 30, 2022	Three Months Ended September 30, 2021	Six Months Ended September 30, 2022	Six Months Ended September 30, 2021
Basic net income/(loss) per common share				
Net income/(loss)	\$ 10,984	\$ 477	\$ 17,540	\$ 137
Weighted-average common shares outstanding	33,476,695	33,328,568	33,438,657	33,268,825
Basic net income/(loss) per common share	<u>\$ 0.33</u>	<u>\$ 0.01</u>	<u>\$ 0.52</u>	<u>\$ 0.00</u>

	Three Months Ended September 30, 2022	Three Months Ended September 30, 2021	Six Months Ended September 30, 2022	Six Months Ended September 30, 2021
Diluted net income/(loss) per common share				
Net income/(loss)	\$ 10,984	\$ 477	\$ 17,540	\$ 137
Weighted-average common shares outstanding	33,476,695	33,328,568	33,438,657	33,268,825
Common share equivalents:				
Stock options	1,536	—	—	1,667
Restricted and performance stock units	295,244	264,256	172,634	186,085
Weighted average shares outstanding – dilutive ⁽¹⁾	33,773,475	33,592,824	33,611,291	33,456,577
Diluted net income/(loss) per common share	\$ 0.33	\$ 0.01	\$ 0.52	\$ 0.00

(1) For the three months ended September 30, 2022 and 2021, 36,310 and 132,605 equity awards, respectively and for the six months ended September 30, 2022 and 2021, 113,559 and 144,664 equity awards, respectively, were not included in the calculation of diluted net income/(loss) per common share, as they would have had an anti-dilutive effect.

The number of common share equivalents, which includes options and both restricted and performance stock units, is computed using the treasury stock method. With regard to the performance stock units, we assume that the associated performance targets will be met at the target level of performance for purposes of calculating diluted net income/(loss) per common share until such time that it is probable that the performance target will not be met.

6. Inventories

Inventories consisted of the following:

	September 30, 2022	March 31, 2022
Raw materials	\$ 56,347	\$ 41,389
Work in process	5,304	6,294
Finished goods	36,339	25,802
	97,990	73,485
Valuation reserves	(2,976)	(1,835)
Inventories, net	\$ 95,014	\$ 71,650

7. Goodwill and Other Intangible Assets

The carrying amount of goodwill by operating segment as of September 30, 2022, is as follows:

	United States and Latin America	Canada	Europe, Middle East and Africa	Asia-Pacific	Total
Balance as of March 31, 2022	\$ 62,725	\$ 122,318	\$ 19,087	\$ 8,624	\$ 212,754
Goodwill acquired ⁽¹⁾	18,620	—	—	—	18,620
Foreign currency translation impact	—	(10,807)	(2,261)	—	(13,068)
Balance as of September 30, 2022	\$ 81,345	\$ 111,511	\$ 16,826	\$ 8,624	\$ 218,306

(1) - Refer to Note 2, "Acquisition," for more information on the goodwill acquired through our recent acquisition of Powerblanket.

Goodwill is tested for impairment on an annual basis and between annual tests if indicators of potential impairment exist. We perform a qualitative analysis to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, including goodwill. If required, we also perform a quantitative analysis using the income approach, based on discounted future cash flows, which are derived from internal forecasts and economic expectations, and the market approach, which is based on market multiples of guideline public companies. The most significant inputs in the Company's quantitative goodwill impairment tests are projected financial information, the weighted average cost of capital and market multiples for similar transactions. Our annual impairment test is performed during the fourth quarter of our fiscal year.

In the fourth quarter of fiscal 2022, we identified the disruptions to our business from the ongoing Russo-Ukrainian war as an indicator of potential impairments in our EMEA reporting unit. We performed our annual goodwill, intangible and tangible impairment assessments including our indefinite life trademarks. Based on the goodwill impairment assessment, there was no impairment of goodwill, intangible or tangible assets or our indefinite life trademarks as of the respective reporting

periods. If overall economic conditions, our key end markets, or factors specific to the Company deteriorate significantly, it could negatively impact the Company's future impairment tests. We will continue to monitor our reporting units' goodwill and asset valuations and test for potential impairments, as appropriate.

Separately, we added \$18,620 of goodwill as part of our recent acquisition of Powerblanket, which is discussed further in Note 2, "Acquisition." The newly acquired goodwill is allocated to our US-LAM segment. We believe the goodwill acquired in this recent acquisition represents synergies from combining operations in addition to the already identifiable assets. We anticipate being able to deduct goodwill for tax purposes.

No triggering events were identified during the three and six month periods ended September 30, 2022 which would indicate that the fair value of any of our reporting units was less than its carrying amount.

Our total intangible assets consisted of the following:

	Gross Carrying Amount at September 30, 2022	Accumulated Amortization	Net Carrying Amount at September 30, 2022	Gross Carrying Amount at March 31, 2022	Accumulated Amortization	Net Carrying Amount at March 31, 2022
Products	\$ 60,778	\$ (29,882)	\$ 30,896	\$ 66,669	\$ (29,445)	\$ 37,224
Trademarks	46,492	(1,744)	44,748	45,222	(1,517)	43,705
Developed technology	14,648	(5,985)	8,663	9,946	(5,933)	4,013
Customer relationships	111,642	(100,370)	11,272	113,413	(103,900)	9,513
Certifications	431	—	431	453	—	453
Contract-based	1,280	(93)	1,187	—	—	—
Total	\$ 235,271	\$ (138,074)	\$ 97,197	\$ 235,703	\$ (140,795)	\$ 94,908

8. Accrued Liabilities

Accrued current liabilities consisted of the following:

	September 30, 2022	March 31, 2022
Accrued employee compensation and related expenses	\$ 13,529	\$ 16,235
Accrued interest	381	277
Customer prepayments	30	405
Warranty reserves	964	557
Professional fees	2,443	2,540
Sales taxes payable	2,624	2,758
Other ⁽¹⁾	4,140	4,199
Total accrued current liabilities	\$ 24,111	\$ 26,971

(1) - Included in Other are accrued warranty-related costs of \$ 2,000 and \$2,523, respectively, associated with the operational execution of a US-LAM project that was completed previously.

9. Debt

Long-term debt consisted of the following:

	September 30, 2022	March 31, 2022
Variable Rate Term Loan A due September 2026, net of deferred debt issuance costs of \$534 and \$640 as of September 30, 2022, and March 31, 2022, respectively	\$ 114,005	\$ 128,360
Less current portion	(9,321)	(7,929)
Total long-term debt	\$ 104,684	\$ 120,431

Senior Secured Credit Facilities

On September 29, 2021, Thermon Group Holdings, Inc., as a credit party and a guarantor, Thermon Holding Corp. ("THC" or the "U.S. Borrower") and Thermon Canada Inc. (the "Canadian Borrower" and together with THC, the "Borrowers"), as borrowers, entered into an Amended and Restated Credit Agreement (the "Credit Agreement") with several

banks and other financial institutions or entities from time to time (the "Lenders") and JPMorgan Chase Bank, N.A., as Administrative Agent (the "Agent"), which was further amended on November 19, 2021.

The Credit Agreement is an amendment and restatement of that certain Credit Agreement dated October 30, 2017 by and among Borrowers, the lenders party thereto and JPMorgan Chase Bank, N.A. as administrative agent (the "Prior Credit Agreement"), and provides for the following credit facilities described below (collectively, the "Facilities").

- Revolving Credit Facility: A USD \$100,000 five-year secured revolving credit facility made available to the U.S. Borrower. The Revolving Credit Facility includes sub-limits for letters of credit and swing-line loans (the "Revolving Credit Facility").
- U.S. Term Loan Facility: A USD \$80,000 five-year secured term loan A (the "U.S. Term Loan") made available to the U.S. Borrower (the "U.S. Term Loan Facility"); and
- Canadian Term Loan Facility: A CAD \$76,182 five-year term loan A (the "Canadian Term Loan" and, together with the U.S. Term Loan, the "Term Loans") made available to the Canadian Borrower (the "Canadian Term Loan Facility," and together with the U.S. Term Loan Facility, the "Term Loan Facilities").

Proceeds of the Facilities were used at closing to repay and refinance the Borrowers' existing indebtedness under the Prior Credit Agreement and pay all interest, fees and expenses related thereto, and thereafter are expected to be used for working capital and general corporate purposes.

The Credit Agreement allows for incremental term loans and incremental revolving commitments in an amount not to exceed USD \$100,000.

Maturity and Repayment

Each of the Facilities terminates on September 29, 2026. Commencing January 1, 2022, each of the Term Loans will amortize as set forth in the table below, with payments on the first day of each January, April, July and October, with the balance of each Term Loan Facility due at maturity.

Installment Dates	Original Principal Amount
January 1, 2022, through October 1, 2022	1.25 %
January 1, 2023, through October 1, 2024	1.88 %
January 1, 2025, through July 1, 2026	2.50 %

Guarantees

The U.S. Term Loan and the obligations of the U.S. Borrower under the Revolving Credit Facility are guaranteed by the Company and all of the U.S. Borrower's current and future wholly owned domestic material subsidiaries (the "U.S. Subsidiary Guarantors"), subject to certain exceptions. The Canadian Term Loan is guaranteed by the Company, the U.S. Borrower, the U.S. Subsidiary Guarantors and each of the wholly owned Canadian material subsidiaries of the Canadian Borrower, subject to certain exceptions.

Security

The U.S. Term Loan and the obligations of the U.S. Borrower under the Revolving Credit Facility are secured by a first lien on all of the assets of the Company, the U.S. Borrower and the U.S. Subsidiary Guarantors, including 100% of the capital stock of the U.S. Subsidiary Guarantors and 65% of the capital stock of the first tier material foreign subsidiaries of the Company, the U.S. Borrower and the U.S. Subsidiary Guarantors, subject to certain exceptions. The Canadian Term Loan is secured by a first lien on all of the assets of the Company, the U.S. Borrower, the U.S. Subsidiary Guarantors, the Canadian Borrower and the material Canadian subsidiaries of the Canadian Borrower, including 100% of the capital stock of the Canadian Borrower's material Canadian subsidiaries.

Interest Rates and Fees

The U.S. Borrower will have the option to pay interest on the U.S. Term Loan and borrowings under the Revolving Credit Facility at a base rate, plus an applicable margin, or at a rate based on LIBOR plus an applicable margin. The Canadian Borrower will have the option to pay interest on the Canadian Term Loan at a prime rate, plus an applicable margin, or at a rate based on the Canadian Dollar Offered Rate, or "CDOR," plus an applicable margin.

Under the applicable Facilities, the margin for base rate loans and Canadian prime rate loans is 62.5 basis points and the applicable margin for LIBOR loans and CDOR loans is 162.5 basis points; provided that, following the completion of one full fiscal quarter after the closing date, the applicable margins will be determined based on a leverage-based performance grid.

In addition to paying interest on outstanding principal under the Revolving Credit Facility, the U.S. Borrower is required to pay a commitment fee in respect of unutilized revolving commitments of 0.25% per annum, provided that, following the completion of one full fiscal quarter after the closing date, the commitment fee will be determined based on a leverage-based performance grid.

Voluntary Prepayment

The Borrowers will be able to voluntarily prepay the principal of the loans outstanding under each of the Facilities without penalty or premium (subject to breakage fees) at any time in whole or in part.

Mandatory Prepayment

Each Borrower is required to repay its respective Term Loan with certain asset sale and insurance proceeds and certain debt proceeds.

Debt Issuance Costs

We incurred fees to third parties in connection with our entry into the Credit Agreement described above. The debt issuance costs of \$1,265 were capitalized and will be amortized over the life of the Credit Agreement. Additionally, we recognized a loss on debt extinguishment of \$ 2,569, which was recorded to Other income/(expense) on our condensed consolidated statements of operations and comprehensive income/(loss).

Financial Covenants

In connection with the Credit Agreement, the Company is required, on a consolidated basis, to maintain certain financial covenant ratios. On the last day of any period of four fiscal quarters ending during a period set forth below, the Company must maintain a consolidated leverage ratio that does not exceed the ratios for such period set forth below (each of which ratios may be increased by 0.50:1.00 for each of the four fiscal quarters following certain acquisitions at the election of the U.S. Borrower):

<u>Fiscal Quarter Ending</u>	<u>Consolidated Leverage Ratio</u>
September 30, 2021, through September 30, 2022	3.75:1.00
December 31, 2022, and each fiscal quarter thereafter	3.50:1.00

In addition, on the last day of any period of four fiscal quarters ending on or after September 30, 2021, the Company must maintain a consolidated fixed charge coverage ratio of not less than 1.25:1.00. As of September 30, 2022, we were in compliance with all financial covenants of the Credit Agreement and there is no material uncertainty about our ongoing ability to comply with our covenants.

Other Covenants

The Credit Agreement contains restrictive covenants (in each case, subject to certain exclusions) that limit, among other things, the ability of the Company and its subsidiaries (including the Borrowers) to:

- incur additional indebtedness;
- grant liens;
- make fundamental changes;
- sell assets;
- make restricted payments;
- enter into sales and leasebacks;
- make investments;
- prepay certain indebtedness;
- enter into transactions with affiliates; and
- enter into restrictive agreements.

The covenants are subject to various baskets and materiality thresholds, with certain of the baskets to the restrictions on the repayment of subordinated or unsecured indebtedness, restricted payments and investments being available only when the Company's pro forma leverage ratios are less than a certain level.

The Credit Agreement contains certain customary representations and warranties, affirmative covenants and events of default, including, among other things, payment defaults, breach of representations and warranties, covenant defaults, cross-defaults to certain indebtedness, certain events of bankruptcy, certain events under ERISA, judgment defaults, actual or asserted failure of any guaranty or security documents to be in full force and effect and change of control. If such an event of default occurs, the Agent will be entitled to take various actions, including the termination of the commitment for the Revolving Credit Facility, the acceleration of amounts due under the Credit Agreement and certain other actions that a secured creditor is customarily permitted to take following a default.

At September 30, 2022, we had \$29,000 in outstanding borrowings under the Revolving Credit Facility. We had \$69,220 of available borrowing capacity thereunder after taking into account the borrowing base and \$1,780 of outstanding letters of credit and the outstanding borrowings under the Revolving Credit Facility as of September 30, 2022. The Term Loans bear interest at the LIBOR rate or CDOR rate, as applicable, in each case plus an applicable margin dictated by our leverage ratio (as described above). The interest rates on the Term Loan Facilities on September 30, 2022 were 4.93% for the Canadian Term Loan Facility, 3.81% for the U.S. Term Loan Facility, and 3.77% for the U.S. Revolving Credit Facility. Interest expense has been presented net of interest income on our condensed consolidated statements of operations and comprehensive income/(loss).

10. Commitments and Contingencies

Legal Proceedings and Other Contingencies

We are involved in various legal and administrative proceedings that arise from time to time in the ordinary course of doing business. Some of these proceedings may result in fines, penalties or judgments being assessed against us, which may adversely affect our financial results. In addition, from time to time, we are involved in various disputes, which may or may not be settled prior to legal proceedings being instituted and which may result in losses in excess of accrued liabilities, if any, relating to such unresolved disputes. As of September 30, 2022, management believes that adequate reserves have been established for any probable and reasonably estimable losses. Expenses related to litigation reduce operating income. We do not believe that the outcome of any of these proceedings or disputes would have a significant adverse effect on our financial position, long-term results of operations, or cash flows. It is possible, however, that charges related to these matters could be significant to our results of operations or cash flows in any one reporting period.

In January 2020, the Company received service of process in a class action application in the Superior Court of Quebec, Montreal, Canada related to certain heating elements previously manufactured by THS and incorporated into certain portable construction heaters sold by certain manufacturers. The Company believes this claim is without merit and intends to vigorously defend itself against the claim. While the Company continues to dispute the allegations, in March 2021, it reached an agreement in principle with the plaintiff and other defendants to resolve this matter without admitting to any liability; such agreement remains subject to the agreement of the parties on the terms of a definitive settlement agreement. Settlement of this matter on the agreed terms will require the Company to contribute an amount that would not have a material impact on the Company's consolidated financial position, results of operations or cash flows. The settlement is subject to, among other things, approval by the Superior Court.

Letters of Credit and Bank Guarantees

At September 30, 2022, the Company had in place letter of credit guarantees and performance bonds securing certain performance obligations of the Company. These arrangements totaled \$15,372. Of this amount, \$1,214 is secured by cash deposits at the Company's financial institutions and an additional \$1,780 represents a reduction of the available amount of the Company's short-term and long-term revolving lines of credit. In addition to the arrangements totaling \$15,372, our Indian subsidiary also has \$4,454 in non-collateralized customs bonds outstanding to secure the Company's customs and duties obligations in India.

11. Revenue

Disaggregation of Revenue

We disaggregate our revenue from contracts with customers by geographic location, as well as revenues recognized at point in time and revenues recognized over time, as we believe these best depict how the nature, amount, timing and uncertainty of our revenue and cash flows are affected by economic factors.

Revenue recognized at a point-in-time based on when control transitions to the customer is generally related to our product sales. Point-in-time revenue does not typically require engineering or installation services. Revenue recognized over time occurs on our projects where engineering or installation services, or a combination of the two, are required. We recognize revenue related to such projects in a systematic way that reflects the transfer of goods or services, or a combination of goods and services, to the customer.

Disaggregation of revenues from contracts with customers for the three and six months ended September 30, 2022 and 2021 is as follows:

	Three Months Ended September 30, 2022			Three Months Ended September 30, 2021		
	Revenues recognized at point in time	Revenues recognized over time	Total	Revenues recognized at point in time	Revenues recognized over time	Total
United States and Latin America	\$ 24,749	\$ 22,685	\$ 47,434	\$ 17,115	\$ 13,327	\$ 30,442

Performance Obligations

At September 30, 2022, revenues associated with our open performance obligations totaled \$160,764. Within this amount, approximately \$19,469 will be earned as revenue in excess of one year. We expect to recognize the remaining revenues associated with unsatisfied or partially satisfied performance obligations within 12 months.

Contract Assets and Liabilities

As of September 30, 2022 and March 31, 2022, contract assets were \$12,985 and \$19,626, respectively. There were no losses recognized on our contract assets for the six months ended September 30, 2022 and 2021. As of September 30, 2022 and March 31, 2022, contract liabilities were \$12,225 and \$8,010, respectively. The majority of contract liabilities at March 31, 2022 will be recognized as revenue in fiscal 2023. We typically recognize revenue associated with our contract liabilities within 12 months.

12. Income Taxes

Our effective income tax rate was 26.2% and 93.6% for the six months ended September 30, 2022 and 2021, respectively. During the six months ended September 30, 2021, the Company recorded discrete tax expenses of \$301 related to withholding taxes in Canada and \$945 related to an increase in withholding tax rate in our Russian subsidiary.

As of September 30, 2022, we have established a long-term liability for uncertain tax positions in the amount of \$21. As of September 30, 2022, the tax years for the fiscal years ended March 31, 2017 through March 31, 2022, remain open to examination by the major taxing jurisdictions.

13. Segment Information

We maintain four reportable segments based on four geographic countries or regions in which we operate: (i) United States and Latin America ("US-LAM"), (ii) Canada, (iii) Europe, Middle East and Africa ("EMEA") and (iv) Asia-Pacific ("APAC"). Within our four reportable segments, our core products and services are focused on the following markets: chemical and petrochemical, oil, gas, power generation, commercial, food and beverage, rail and transit, and other, which we refer to as our "key end markets." We offer a full suite of products (heating units, heating cables, industrial heating blankets and related products, temporary power solutions and tubing bundles), services (engineering, installation and maintenance services) and software (design optimization and wireless and network control systems) required to deliver comprehensive solutions to

some of the world's largest and most complex projects. Profitability within our segments is measured by operating income. Profitability can vary in each of our reportable segments based on the competitive environment within the region, the level of corporate overhead, such as the salaries of our senior executives and the level of research and development and marketing activities in the region, as well as the mix of products and services. For purposes of this note, revenue is attributed to individual countries or regions on the basis of the physical location and jurisdiction of organization of the subsidiary that invoices the material and services.

Total sales to external customers, inter-segment sales, depreciation expense, amortization expense, income from operations, property, plant and equipment, net and total assets for each of our four reportable segments are as follows:

	Three Months Ended September 30, 2022	Three Months Ended September 30, 2021	Six Months Ended September 30, 2022	Six Months Ended September 30, 2021
Sales to External Customers:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction and Special Note Regarding Forward-Looking Statements

Management's discussion and analysis of our financial condition and results of operations is provided as a supplement to the unaudited condensed consolidated financial statements and accompanying notes thereto for the three and six months ended September 30, 2022 and 2021 to help provide an understanding of our financial condition, changes in our financial condition and results of our operations. In this quarterly report, we refer to the three month periods ended September 30, 2022 and 2021 as "Interim 2023" and "Interim 2022," respectively. Accordingly, we refer to the six-month periods ended September 30, 2022 and 2021 as "YTD 2023" and "YTD 2022," respectively. The following discussion should be read in conjunction with, and is qualified in its entirety by reference to, our unaudited condensed consolidated financial statements and related notes included in Item 1 above.

This quarterly report includes forward-looking statements within the meaning of the U.S. federal securities laws in addition to historical information. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, without limitation, statements regarding our industry, business strategy, plans, goals and expectations concerning our market position, future operations, margins, profitability, capital expenditures, liquidity and capital resources and other financial and operating information. When used in this discussion, the words "anticipate," "assume," "believe," "budget," "continue," "contemplate," "could," "should," "estimate," "expect," "intend," "may," "plan," "possible," "potential," "predict," "project," "will," "would," "future," and similar terms and phrases are intended to identify forward-looking statements in this quarterly report.

Forward-looking statements reflect our current expectations regarding future events, results or outcomes. These expectations may or may not be realized. Some of these expectations may be based upon assumptions, data or judgments that prove to be incorrect. In addition, our business and operations involve numerous risks and uncertainties, many of which are beyond our control, which could result in our expectations not being realized or otherwise materially affect our financial condition, results of operations and cash flows. These forward-looking statements include, but are not limited to, statements regarding: (i) our plans to strategically pursue emerging growth opportunities, including strategic acquisitions, in diverse regions and across industry sectors; (ii) our plans to secure more new facility project bids; (iii) our ability to generate more facility maintenance, repair and operations or upgrades or expansions revenue, from our existing and future installed base; (iv) our ability to timely deliver backlog; (v) our ability to respond to new market developments and technological advances;

(vi) our expectations regarding energy consumption and demand in the future and its impact on our future results of operations; (vii) our plans to develop strategic alliances with major customers and suppliers; (viii) our expectations that our revenues will increase; (ix) our belief in the sufficiency of our cash flows to meet our needs for the next year; (x) our ability to integrate acquired companies; (xi) our ability to successfully achieve synergies from acquisitions; and (xii) our ability to make required debt repayments.

Actual events, results and outcomes may differ materially from our expectations due to a variety of factors. Although it is not possible to identify all of these factors, they include, among others, (i) the outbreak of a global pandemic, including the current pandemic (COVID-19 and its variants); (ii) general economic conditions and cyclicality in the markets we serve; (iii) future growth of energy, chemical processing and power generation capital investments; (iv) our ability to operate successfully in foreign countries; (v) our ability to successfully develop and improve our products and successfully implement new technologies; (vi) competition from various other sources providing similar heat tracing and process heating products and services, or alternative technologies, to customers; (vii) our ability to deliver existing orders within our backlog; (viii) our ability to bid and win new contracts; (ix) the imposition of certain operating and financial restrictions contained in our debt agreements; (x) our revenue mix; (xi) our ability to grow through strategic acquisitions; (xii) our ability to manage risk through insurance against potential liabilities (xiii) changes in relevant currency exchange rates; (xiv) tax liabilities and changes to tax policy; (xv) impairment of goodwill and other intangible assets; (xvi) our ability to attract and retain qualified management and employees, particularly in our overseas markets; (xvii) our ability to protect our trade secrets; (xviii) our ability to protect our intellectual property; (xix) our ability to protect data and thwart potential cyber-attacks; (xx) a material disruption at any of our manufacturing facilities; (xxi) our dependence on subcontractors and third-party suppliers; (xxii) our ability to profit on fixed-price contracts; (xxiii) the credit risk associated to our extension of credit to customers; (xxiv) our ability to achieve our operational initiatives; (xxv) unforeseen difficulties with expansions, relocations, or consolidations of existing facilities; (xxvi) potential liability related to our products as well as the delivery of products and services; (xxvii) our ability to comply with foreign anti-corruption laws; (xxviii) export control regulations or sanctions; (xxix) changes in government administrative policy; (xxx) the current geopolitical instability in Russia and Ukraine and related sanctions by the U.S. and Canadian governments and European Union; (xxxi) environmental and health and safety laws and regulations as well as environmental liabilities; and (xxxii) climate change and related regulation of greenhouse gases and (xxxiii) those factors listed under Item 1A, "Risk Factors" included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, filed with the Securities and Exchange Commission (the "SEC") on May 26, 2022, and in any subsequent Quarterly Reports on Form 10-Q, Current Reports on Form 8-K or other filings that we have filed or may file with the SEC. Any one of these factors or a combination of these factors could materially affect our future results of operations and could influence whether any forward-looking statements contained or incorporated by reference in this quarterly report ultimately prove to be accurate.

Our forward-looking statements are not guarantees of future performance, and actual results and future performance may differ materially from those suggested in any forward-looking statements. We do not intend to update these statements unless we are required to do so under applicable securities laws.

Business Overview and Company History

We are one of the largest providers of highly engineered industrial process heating solutions for process industries. For over 65 years, we have served a diverse base of thousands of customers around the world in attractive and growing markets, including chemical and petrochemical, oil and gas, power generation, commercial, rail and transit, and other, which we refer to as our "key end markets." We offer a full suite of products (heating units, heating cables, temporary power solutions, tubing bundles, industrial heating blankets and chillers), services (engineering, installation and maintenance services) and software (design optimization and wireless and network control systems) required to deliver comprehensive solutions to some of the world's largest and most complex projects. With a legacy of innovation and continued investment in research and development, Thermon has established itself as a technology leader in hazardous or classified areas, and we are committed to developing sustainable solutions for our customers. We serve our customers through a global network of sales and service professionals and distributors in more than 30 countries and through our eight manufacturing facilities on three continents. These global capabilities and longstanding relationships with some of the largest multinational oil and gas, chemical processing, power and engineering, procurement and construction ("EPC") companies in the world have enabled us to diversify our revenue streams and opportunistically access high growth markets worldwide. During YTD 2023 and YTD 2022, approximately 59% and 65%, respectively, of our revenues were generated from outside of the United States.

Revenue. Our revenues are derived from providing customers with a full suite of innovative and reliable process heating solutions, including advanced heating and filtration solutions for industrial and hazardous area applications. Revenue recognized at a point in time based on when control goes over to the customer is generally related to our product sales. Point in time revenue does not typically require engineering or installation services. Revenue recognized over time occurs on our projects where engineering or installation services, or a combination of the two, are required. We recognize revenue related to such projects in a systematic way that reflects the transfer of goods or services, or a combination of goods and services, to the customer.

We maintain four reportable segments based on four geographic countries or regions in which we operate: (i) United States and Latin America ("US-LAM"), (ii) Canada, (iii) Europe, Middle East and Africa ("EMEA"), and (iv) Asia-Pacific ("APAC"). Within our four reportable segments, our core products and services are focused on the following markets: chemical and petrochemical, oil, gas, power generation, commercial, rail and transit, food and beverage, and other, which we refer to as our "key end markets."

We believe that our pipeline of planned projects, in addition to our backlog of signed purchase orders, provides us with some visibility into our future revenue. Historically, we have experienced few order cancellations, and the cancellations that have occurred in the past have not been material compared to our total contract volume or total backlog. The small number of order cancellations is attributable in part to the fact that a large portion of our solutions are ordered and installed toward the end of large project construction. Our backlog at September 30, 2022, was \$160.8 million, as compared to \$156.2 million at March 31, 2022. The timing of recognition of revenue out of backlog is not always certain, as it is subject to a variety of factors that may cause delays, many of which are beyond our control (such as customers' delivery schedules and levels of capital and maintenance expenditures). When delays occur, the recognition of revenue associated with the delayed project is likewise deferred.

Cost of sales. Our cost of sales primarily includes the costs of raw material items used in the manufacturing of our products, costs of ancillary products that are sourced from external suppliers and construction labor cost. Additional costs of revenue include contract engineering costs directly associated to projects, direct labor costs, shipping and handling costs, and other costs associated with our manufacturing/fabrication operations. The other costs associated with our manufacturing/fabrication operations are primarily indirect production costs, including depreciation, indirect labor costs, warranty-related costs, and the costs of manufacturing support functions such as logistics and quality assurance. Key raw material costs include polymers, copper, stainless steel, insulating material, and other miscellaneous parts related to products manufactured or assembled as part of our heat tracing solutions. Raw material costs have been stable in the past; however, we face challenges from time to time with temporary shortages related to the global supply chain issues driven by the COVID-19 pandemic in certain raw materials as well as an increase in costs of these materials due to use of alternate suppliers, higher freight costs, increased lead times, expedited shipping and other inflationary factors. We cannot provide any assurance that we will continue to mitigate temporary raw material shortages or be able to pass along such cost increases, including the potential impacts of tariffs or supply chain challenges, to our customers in the future, and if we are unable to do so, our results of operations may be adversely affected.

Operating expenses. Our selling, general and administrative expenses are primarily comprised of compensation and related costs for sales, marketing, pre-sales engineering and administrative personnel, plus other sales related expenses as well as other costs related to research and development, insurance, professional fees, the global integrated business information system, and provisions for bad debts. In addition, our deferred compensation expense includes a non-qualified deferred compensation plan for certain highly compensated employees where payroll contributions are made by the employees on a pre-tax basis. The expense/income associated with our deferred compensation plan is titled "Deferred compensation plan expense/(income)" on our condensed consolidated statements of operations and comprehensive income/(loss).

Key drivers affecting our results of operations. Our results of operations and financial condition are affected by numerous factors, including those described under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, filed with the SEC on May 26, 2022, and in any subsequent Quarterly Reports on Form 10-Q that we have filed or may file with the SEC, including those described below. These factors include the following:

- **Impact of product mix.** Typically, our customers require our products as well as our engineering and construction services. The level of service and construction needs affect the profit margin for each type of revenue. We tend to experience lower margins from our design optimization, engineering, installation and maintenance services than we do from sales of our heating products, for which we recognize revenue at a point in time. We also tend to experience lower margins from our outsourced products, such as electrical switch gears and transformers, than we do from our manufactured products. Accordingly, our results of operations are impacted by our mix of products and services.

We estimate that Over time and Point in time revenues have each made the following contribution as a percentage of total revenue in the periods listed:

	Three Months Ended September 30,		Six months ended September 30,	
	2022	2021	2022	2021
Over time	38%	38%	38%	38%
Point in time	62%	62%	62%	62%

Our Over time revenue includes (i) products and services which are billed on a time and materials basis, and (ii) fixed fee contracts for complex turnkey solutions. For our time and materials service contracts, we recognize revenues as the products and services are provided over the term of the contract and have determined that the stated rate for installation services and products is representative of the stand-alone selling price for those services and products.

Our turnkey projects, or fixed fee projects, offer our customers a comprehensive solution for heat tracing from the initial planning stage through engineering/design, manufacture, installation and final proof-of-performance and acceptance testing. Turnkey services also include project planning, product supply, system integration, commissioning and on-going maintenance. Turnkey solutions, containing multiple deliverables, are customer specific and do not have an alternative use and present an unconditional right to payment, and thus are treated as a single performance obligation with revenues recognized over time as work progresses.

For revenue recognized under fixed fee turnkey contracts, we measure the costs incurred that contribute towards the satisfaction of our performance obligation as a percentage of the total cost of production (the "cost-to-cost method"), and we recognize a proportionate amount of contract revenue, as the cost-to-cost method appropriately depicts performance towards satisfaction of the performance obligation. Changes to the original cost amount may be required during the life of the contract and such estimates are reviewed on a regular basis. Sales and gross profits are adjusted using the cumulative catch-up method for revisions in estimated contract costs. Reviews of estimates have not generally resulted in significant adjustments to our results of operations.

Point in time revenue represents goods transferred to customers at a point in time and is recognized when obligations under the terms of the contract with the customer are satisfied; generally this occurs with the transfer of control upon shipment.

- *Timing of large projects.* Our results of operations in recent years have been impacted by the various construction phases of large projects. We are typically designated as the heat tracing provider of choice by the project owner. We then engage with multiple contractors to address incorporating various heat tracing solutions throughout the overall project. Our largest projects may generate revenue for several quarters. In the early stages of a large project, our revenues are typically realized from the provision of engineering services. In the middle stages, or the material requirements phase, we typically experience the greatest demand for our heat tracing cable, at which point our revenues tend to accelerate. Revenues tend to decrease gradually in the final stages of a project and are generally derived from installation services and demand for electrical panels and other miscellaneous electronic components used in the final installation of heat tracing cable, which we frequently outsource from third-party manufacturers. Therefore, we typically provide a mix of products and services during each phase of a large project, and our margins may fluctuate accordingly.
- *Cyclicality of end-users' markets.* Demand for our products and services depends in large part upon the level of capital and maintenance expenditures of our customers and end users, in particular those in the energy, oil, gas, chemical processing and power generation industries, and firms that design and construct facilities for these industries. These customers' expenditures historically have been cyclical in nature and vulnerable to economic downturns. Large projects historically have been a substantial source of revenue growth, and large project revenues tend to be more cyclical than maintenance and repair revenues. A sustained decrease in capital and maintenance spending or in new facility construction by our customers could have a material adverse effect on the demand for our products and services and our business, financial condition and results of operations.
- *Acquisition strategy.* In recent years, we have been executing on a strategy to grow the Company through the acquisition of businesses that are either in the process heating solutions industry or provide complementary products and solutions for the markets and customers we serve. Refer to Note 2, "Acquisition," for more discussion of our recent acquisition.

Recent Developments

The Company has paused new investments in, and new orders for oil and gas customers by, our Russian affiliate. We have resumed limited service to select non-oil and gas customers in Russia and customers outside of Russia, and we expect to fulfill our existing agreements while remaining in compliance with applicable laws, including applicable sanctions and trade controls. We continue to assess the impact of the Russo-Ukrainian war on our results of operations, financial position and overall performance as the situation develops and any broader implications it may have on the global economy. Given our decision to resume only limited operations in our Russia facility, we executed a reduction-in-force equating to 14 positions, leaving enough positions to address existing and anticipated business needs in August 2022. The cost to enact the reduction-in-force was not material to the Company.

On May 31, 2022, our subsidiary Thermon Holding Corp., as buyer, acquired Powerblanket, (“Powerblanket”), from Glacier Capital LLC, as seller (the "Acquisition"). Powerblanket is a leading North American supplier of heated blankets built upon patented heat spreading technology, and portable industrial chillers. The purchase price for the acquisition was \$35.3 million. Refer to Note 2, "Acquisition," for more information.

The COVID-19 pandemic and the measures being taken to address and limit the spread of the virus have adversely affected the economies and financial markets of many countries, resulting in an economic downturn that negatively impacted, and may continue to negatively impact, global demand for our products and services. We are still experiencing effects of lockdowns in Asia, which are impacting our results in our APAC segment. The effect of loosening pandemic restrictions outside of APAC, along with pent-up demand from periods of stagnant lockdown and uncertainty have combined to strengthen customer demand from most regions we serve, especially in North America. During periods of the pandemic we experienced, and we may in the future experience, a decline in the demand of our products and services or disruptions in raw materials or labor required for manufacturing that has in the past, and may in the future, materially and negatively impact our business, financial condition, results of operation and overall financial performance. We continue to monitor the pandemic restrictions and other effects the pandemic may have on our business.

Results of Operations - Three-month periods ended September 30, 2022 and 2021

The following table sets forth our unaudited condensed consolidated statements of operations for the three months ended September 30, 2022 and 2021 and indicates the amount of change and percentage change between periods.

(Dollars in thousands)	Three Months Ended September 30,		Increase/(Decrease)	
	2022	2021	\$	%
Consolidated Statements of Operations Data:				
Sales	\$ 100,557	\$ 81,322	\$ 19,235	24 %
Cost of sales	54,631	49,601	5,030	10 %
Gross profit	45,926	31,721	14,205	45 %
Operating expenses:				
Selling, general and administrative expenses	27,754	23,320	4,434	19 %
Deferred compensation plan expense/(income)	(303)	(14)	(289)	2064 %
Amortization of intangible assets	2,437	2,190	247	11 %
Restructuring and other charges/(income)	—	—	—	nm
Income/(loss) from operations	16,038	6,225	9,813	158 %
Other income/(expenses):				
Interest expense, net	(1,408)	(2,022)	614	(30)%
Other income/(expense)	(335)	(2,956)	2,621	(89)%
Income/(loss) before provision for income taxes	14,295	1,247	13,048	1046 %
Income tax expense/(benefit)	3,311	770	2,541	330 %
Net income/(loss)	\$ 10,984	\$ 477	\$ 10,507	2203 %

As a percent of sales:			Change in basis points	
	2022	2021		
Gross profit	45.7 %	39.0 %		670 bps
Selling, general and administrative expenses	27.6 %	28.7 %		-110 bps
Income/(loss) from operations	15.9 %	7.7 %		820 bps
Net income/(loss)	10.9 %	0.6 %		1030 bps
Effective tax rate	23.2 %	61.7 %		

Three Months Ended September 30, 2022 ("Interim 2023") Compared to the Three Months Ended September 30, 2021 ("Interim 2022")

Revenues. Revenues increased in Interim 2023 primarily due to strong performance in our US-LAM and Canada reportable segments, which grew revenues \$17.0 million, or 56%, and \$9.8 million, or 39%, respectively, compared to Interim 2022. We experienced strong maintenance-related spending from our customers in both segments. Our recent acquisition of Powerblanket in the US-LAM segment contributed \$3.0 million in revenue growth in Interim 2023. Our EMEA and APAC segments contracted in Interim 2023, with declines of \$(7.0) million, or (42)%, and \$(0.6) million, or (7)%, respectively, compared to Interim 2022. Impacting revenue in EMEA were the effects of the Russo-Ukrainian war to our Russian affiliate, as well as the overall recessionary environment which resulted in fewer projects and less volume and consequently, greater competition. Impacting revenue in APAC were the lingering effects of COVID-19 lockdowns in certain areas of the region, partially moderated by signs of recovery in the rest of the region. Separately, revenue was negatively impacted in Interim 2023 by foreign exchange rates by \$3.1 million.

Point in time revenues in Interim 2023 were \$62.3 million, or 62%, of total sales, while Over time revenues were \$38.2 million, or 38%. This compares to 62% Point in time revenues and 38% Over time revenues in Interim 2022. Refer to the "Overview" section above for definitions of Point in time and Over time revenue.

Gross profit and margin. The higher gross profit in Interim 2023 is primarily attributable to volume increases driven by strong Point in time and Over time sales in our US-LAM and Canada segments, price increases, and operational efficiencies. These positive drivers were partially offset by incremental costs driven by global supply chain challenges. Over time sales margins in Interim 2022 were primarily impacted by similar incremental costs from supply chain challenges as well as warranty costs associated with the operational execution of a US-LAM project that was completed in a prior year and lower margin associated with a large, one-time project in our US-LAM segment.

Selling, general and administrative expenses. The increase in SG&A expenses in Interim 2023 was driven by greater sales activity, resulting in higher salaries & benefits, performance-based incentive compensation, sales commissions, as well as increased travel and marketing costs. SG&A as a percent of sales was 27.6% in Interim 2023 versus 28.7% in Interim 2022, which is attributable to the Company's ongoing cost control efforts.

Deferred compensation plan expense/(income). The increase in deferred compensation plan income in Interim 2023 is attributable in part to market fluctuations in the underlying balances owed to employees as compared to Interim 2022. To note, this compensation plan expense/(income) is materially offset in other income/(expense) where the Company records market gains/(losses) on related investment assets. Refer to Note 3, "Fair Value Measurements," for more information.

Amortization of intangible assets. Amortization of intangible assets in Interim 2023 increased slightly over Interim 2022, as we began to amortize more intangible assets following our acquisition of Powerblanket in the first fiscal quarter of the 2023. Please refer to Note 2, "Acquisition," for more information regarding our acquisition.

Restructuring and other charges/(income). Restructuring and other charges/(income) was zero in Interim 2023 and Interim 2022.

Interest expense, net. The decrease in interest expense is primarily due to a lower average outstanding balance of debt during Interim 2023, which was \$118.2 million versus \$143.8 million during Interim 2022, as well as lower interest rates stemming from the Company's amendment to its Credit Agreement in September 2021. See Note 9, "Debt," for additional information on our long-term debt.

Other income/(expense). The decrease in expense primarily relates to debt extinguishment costs of \$2.6 million recognized in Interim 2022 related to the amendment of the Company's Credit Agreement in September 2021.

Income tax expense/(benefit). Our effective tax rate was 23.2% and 61.7% in Interim 2023 and Interim 2022, respectively. During Interim 2023, the Company recorded a tax benefit of \$0.2 million related to Russian withholding taxes at its Russian subsidiary. The effective tax rate in Interim 2022 was impacted by additional tax expense of \$0.5 million primarily related to withholding taxes on an intercompany dividend from our Canadian subsidiary and other discrete tax items. Refer to Note 12, "Income Taxes," for additional detail.

Net income/(loss). The change in net income/(loss) is explained by the changes noted in the sections above.

Results of Operations - Six-month periods ended September 30, 2022 and 2021

The following table sets forth our unaudited condensed consolidated statements of operations for the six months ended September 30, 2022 and 2021, respectively, and indicates the amount of change and percentage change between periods.

(Dollars in thousands)	Six Months Ended September 30,		Increase/(Decrease)	
	2022	2021	\$	%
Consolidated Statements of Operations Data:				
Sales	\$ 195,999	\$ 152,477	\$ 43,522	29 %
Cost of sales	112,848	94,218	18,630	20 %
Gross profit	83,151	58,259	24,892	43 %
Operating expenses:				
Selling, general and administrative expenses	52,157	44,721	7,436	17 %
Deferred compensation plan expense/(income)	(963)	318	(1,281)	(403)%
Amortization of intangible assets	4,705	4,426	279	6 %
Restructuring and other charges/(income)	—	(414)	414	(100)%
Income/(loss) from operations	27,252	9,208	18,044	
Other income/(expenses):				
Interest expense, net	(2,243)	(4,187)	1,944	(46)%
Other income/(expense)	(1,251)	(2,890)	1,639	(57)%
Income/(loss) before provision for income taxes	23,758	2,131	21,627	1015 %
Income tax expense/(benefit)	6,218	1,994	4,224	212 %
Net income/(loss)	\$ 17,540	\$ 137	\$ 17,403	12703 %
Change in basis points				
As a percent of sales:				
Gross profit	42.4 %	38.2 %	420 bps	
Selling, general and administrative expenses	26.6 %	29.3 %	-270 bps	
Income/(loss) from operations	13.9 %	6.0 %	790 bps	
Net income/(loss)	8.9 %	0.1 %	880 bps	
Effective tax rate	26.2 %	93.6 %		

Six Months Ended September 30, 2022 ("YTD 2023") Compared to the Six Months Ended September 30, 2021 ("YTD 2022")

Revenues. Revenue increased in YTD 2023 compared to YTD 2022 due to strong performance in our US-LAM and Canada segments. US-LAM revenue increased \$39.9 million, or 75%, while Canada revenue increased \$16.6 million, or 33%. We experienced strong maintenance-related spending from our customers in both segments. Our recent acquisition of Powerblanket in the US-LAM segment contributed \$4.0 million in revenue growth. These increases were partly offset by contractions in our EMEA and APAC segments, with decreases in revenue of \$(11.9) million, or (38)% and \$(1.2) million, or (7)%, respectively. The ongoing effects of the Russo-Ukrainian war as well as the overall recessionary environment impacted the results in EMEA, while lingering COVID-19 lockdowns and their effects delayed the recovery in APAC. Separately, revenue was negatively impacted in YTD 2023 by foreign exchange rates by approximately, \$6.0 million.

Point in time revenue and Over time revenue comprised 62% and 38% of sales in both YTD 2023 and YTD 2022, respectively.

Gross profit and margin. Gross profit increased \$24.9 million on stronger sales, and gross margin was up 420 bps. Although sales mix was consistent, we have delivered greater sales in both Over time sales as well as Point in time sales during YTD 2023. Gross margin was further augmented by strong price increases as well as operational efficiencies. Gross margin in YTD 2022 was diluted, in part, by warranty costs associated with the operational execution of a large project in our US-LAM segment that was completed in a prior year, which was somewhat offset by benefits from the Canadian Emergency Wage program ("CEWS"). Refer to Note 1, "Basis of Presentation," for more information on CEWS.

Selling, general and administrative expenses. Selling, general and administrative expenses ("SG&A") increased \$7.4 million in YTD 2023 compared to YTD 2022 driven by costs associated with greater sales activity, resulting in increases in salaries and benefits, incentive pay, commissions, travel, and marketing costs. In addition, costs increased in YTD 2023 due to the acquisition of Powerblanket. However, SG&A as a percent of sales decreased by 270 bps, which is attributable to continued cost discipline.

Deferred compensation plan expense/(income). Deferred compensation plan expense/(income) generated income in YTD 2023 due to market fluctuations in the underlying balances owed to employees. This compensation plan expense/(income) is materially offset in other income/(expense) where the Company recorded market gains/(losses) on related investment assets. Refer to Note 3, "Fair Value Measurements," for more information.

Restructuring and other charges/(income). There were no restructuring charges/(income) in YTD 2023. Refer to Note 4, "Restructuring," for discussion of activity in the prior year.

Amortization of intangible assets. Amortization of intangible assets was relatively flat in YTD 2023 as compared to YTD 2022. Activity within these accounts is driven by periodic straight-line amortization of our acquired intangibles. Because our acquisition of Powerblanket was affected for only part of YTD 2023, it did not have a significant impact on the amortization in the period.

Interest expense, net. Interest expense, net decreased in YTD 2023 as compared to YTD 2022 due to a lower average interest rate on our outstanding principal, as well as a lower average outstanding debt. Refer to Note 9, "Debt," for more information on our outstanding debt.

Other income/(expense). Other income/(expense) decreased in YTD 2023 primarily due to the debt extinguishment costs that we recognized in YTD 2022 that were absent in YTD 2023, partially offset by market fluctuations in the underlying investments associated with our non-qualified deferred compensation plan. These unrealized losses on investments were materially offset by deferred compensation plan income as noted above.

Income taxes. Income tax expense was \$6.2 million in YTD 2023 on pre-tax income of \$23.8 million compared to income tax expense of \$2.0 million in YTD 2022 on pre-tax income of \$2.1 million, an increase of \$4.2 million in income tax expense. Our effective tax rate was 26.2% and 93.6% in YTD 2023 and YTD 2022, respectively. During YTD 2022, we recorded discrete tax items totaling \$1.5 million primarily related to withholding taxes in Canada and Russia and other discrete tax items.

Net income/(loss). The change in net income/(loss) is explained by the changes noted above.

Contingencies

See Note 10, "Commitments and Contingencies," to our unaudited condensed consolidated financial statements included above in Part I, Item 1. Financial Statements (Unaudited) of this quarterly report, which is hereby incorporated by reference into this Item 2.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flows from operations and funds available under our revolving credit facility. Our primary liquidity needs are to finance our working capital, capital expenditures, debt service needs and potential future acquisitions.

At September 30, 2022, we had \$31.9 million in cash and cash equivalents. We manage our global cash requirements by maintaining cash and cash equivalents at various financial institutions throughout the world where we operate. Approximately \$6.5 million, or 21%, of these amounts were held in domestic accounts with various institutions and approximately \$25.3 million, or 79%, of these amounts were held in accounts outside of the United States with various financial institutions. While we require cash needs at our various foreign operations, excess cash is available for distribution to the United States through intercompany dividends or debt reduction in Canada.

Generally, we seek to maintain a cash and cash equivalents balance between \$30.0 and \$40.0 million. We will encounter periods where we may be above or below this range, due to, for example, inventory buildup for anticipated seasonal demand in fall and winter months, related cash receipts from credit sales in months that follow, debt maturities, restructuring activities, larger capital investments, severe and/or protracted economic downturns, acquisitions, or some combination of the above activities. The Company continues to manage its working capital requirements effectively through optimizing inventory levels, doing business with credit-worthy customers, and extending payments terms with its supplier base.

Future Cash Requirements

Our future capital requirements depend on many factors as noted throughout this report. We believe that, based on our current level of operations and related cash flows, plus cash on hand and available borrowings under our revolving credit

facility, we will be able to meet our liquidity needs for the next twelve months and the foreseeable future. We had \$29.0 million of borrowings outstanding on our revolving credit facility at September 30, 2022. The \$29.0 million was borrowed to support the acquisition of Powerblanket. Please refer to Note 2, "Acquisition," for more information regarding our acquisition.

For fiscal 2023, we expect our capital expenditures to approximate 2.5% to 3.5% of revenue. Additionally, we expect to pay \$9.3 million in principal payments on our long-term debt, as well as \$3.4 million related to our leased assets in the next twelve months. See further details in Note 9, "Debt," in Part I, Item 1. Financial Statements (Unaudited) of this quarterly report. We also have payment commitments of \$3.4 million, mostly related to long-term information technology contracts, of which \$2.0 million are due within the next twelve months.

Strategic Investments

Our long term plan includes investments in three key areas as we look to profitably grow the Company beyond its existing installed base.

First, we expect to diversify our revenues into adjacent markets like commercial, food & beverage, transportation and other non-oil and gas industries where we can continue to differentiate our offerings through quality, safety and customer service, while also aligning Thermon's strategy around the energy transition toward a more sustainable global economy.

Second, we expect higher levels of investment in the emerging markets over the coming decades to meet the needs of a larger middle class and will be investing in resources to more quickly respond to the unique needs of those local markets.

Finally, we will continue expanding our technology-enabled maintenance solutions, like our recently launched Genesis Network, which helps our customers more efficiently and safely monitor and maintain their heating systems by utilizing our software, analytics, hardware and process heating maintenance expert services.

These three initiatives will include incremental investments, as evidenced by our investment in our legacy business as well as our recent acquisition of Powerblanket, over a multi-year period, but we expect will result in a more diversified, sustainable, and profitable company over time.

Discussion and Analysis of Cash Flows

	Six months ended September 30,			Increase/(Decrease)
	(Dollars in thousands)			
	2022	2021		
Total cash provided by/(used in):				
Operating activities	\$ 12,531	\$ 10,451		\$ 2,080
Investing activities	(38,810)	(1,998)		(36,812)
Financing activities	17,943	(9,992)		27,935
Free Cash Flow: ⁽¹⁾				
Cash provided by operating activities	\$ 12,531	\$ 10,451		\$ 2,080
Less: Cash used for purchases of property, plant, and equipment	(3,614)	(2,055)		(1,559)
Plus: Sales of rental equipment	103	57		46
Free Cash Flow	<u>\$ 9,020</u>	<u>\$ 8,453</u>		<u>\$ 567</u>

(1) "Free Cash Flow" is a non-GAAP financial measure, which we define as net cash provided by operating activities less cash used for the purchase of property, plant, and equipment, net of sales of rental equipment and proceeds from sales of land and buildings. Free Cash Flow is one measure management uses internally to assess liquidity. Our calculation may not be comparable to similarly titled measures reported by other companies.

Operating Cash Flows

Operating cash flows increased in YTD 2023 as compared to YTD 2022 primarily due to an increase in net income of \$17.4 million, largely offset by a use of cash from both working capital accounts of \$12.4 million, comprised mostly of investments in inventory in anticipation of heating season and in light of recent supply chain constraints, and non-cash items of \$3.0 million.

Investing Cash Flows

Investing cash flows decreased in YTD 2023 as compared to YTD 2022 mainly due to the acquisition of Powerblanket for \$35.3 million on May 31, 2022. Refer to Note 2, "Acquisition," for more information. Additionally, we increased our capital

expenditures by \$1.6 million in YTD 2023 as compared to YTD 2022, mostly for information technology assets and machinery and equipment, including Temporary Power Solutions rental assets.

Financing Cash Flows

Financing cash flows increased in YTD 2023 versus YTD 2022 primarily due to the drawdown on our Revolving Credit Facility in the amount of \$32.0 million, of which we paid back \$3.0 million in YTD 2023. The Revolving Credit Facility borrowings were used to acquire Powerblanket, as mentioned above.

Credit Facilities

On September 29, 2021, Thermon Group Holdings, Inc. (the "Company"), as a credit party and a guarantor, and its subsidiaries Thermon Holding Corp. ("THC" or the "U.S. Borrower") and Thermon Canada Inc. (the "Canadian Borrower" and together with THC, the "Borrowers"), as borrowers, entered into an Amended and Restated Credit Agreement (the "Credit Agreement") with several banks and other financial institutions or entities from time to time (the "Lenders") and JPMorgan Chase Bank, N.A., as Administrative Agent (the "Agent").

The Credit Agreement is an amendment and restatement of that certain Credit Agreement dated October 30, 2017 by and among Borrowers, the lenders time to time party thereto and JPMorgan Chase Bank, N.A. as administrative agent (the "Prior Credit Agreement"), and provides for the credit facilities described in Note 9, "Debt," in Part I, Item 1. Financial Statements (Unaudited) of this quarterly report.

We had \$29.0 million of borrowings outstanding on our Revolving Credit Facility at September 30, 2022.

Other Non-GAAP Financial Measures

In addition to evaluating our cash flow generation based upon operating, investing, and financing activities, the Company believes that the non-GAAP measure used in this section may provide investors and key stakeholders with another important perspective regarding our performance. The Company does not intend for this non-GAAP metric to be a substitute for the related GAAP measure, nor should it be viewed in isolation and without considering all relevant GAAP measurements. Moreover, our calculation may not be comparable to similarly titled measures reported by other companies.

We define "Free Cash Flow" as net cash provided by operating activities less cash used for the purchase of property, plant, and equipment, net of sales of rental equipment as well as proceeds from sales of land and buildings. This metric should not be interpreted to mean the remaining cash that is available for discretionary spending, dividends, share repurchases, acquisitions, or other purposes, as it excludes significant, mandatory obligations, such as principal payments on the Company's long-term debt facility. Free cash flow is one measure that the Company uses internally to assess liquidity.

Free Cash Flow totaled \$9.0 million for YTD 2023 as compared to \$8.5 million for YTD 2022, the drivers of which are explained above under "Results of Operations."

Contractual Obligations and Off-Balance Sheet Arrangements

There have been no material changes outside the ordinary course of business in the Company's contractual obligations during YTD 2023. The Company does not have any off-balance sheet arrangements or any interest in entities commonly referred to as variable interest entities, which include special purpose entities and other structured finance entities. See the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2022, filed on May 26, 2022, for further details.

Critical Accounting Policies

Our condensed consolidated financial statements are prepared in conformity with GAAP. The preparation of our financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. See Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, filed with the SEC on May 26, 2022, for a discussion of the Company's critical accounting policies and estimates.

Recent Accounting Pronouncements

See Note 1, "Basis of Presentation," to our unaudited condensed consolidated financial statements and accompanying notes thereto included above in Item 1. Financial Statements (Unaudited) of this quarterly report for information on recent accounting pronouncements, which is hereby incorporated by reference into this Item 2.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our primary market risk exposures are the effect of fluctuations in foreign exchange rates, interest rates and commodity prices.

Foreign currency risk relating to operations. We transact business globally and are subject to risks associated with fluctuating foreign exchange rates. Approximately 59% of our YTD 2023 consolidated revenue was generated by sales from our non-U.S. subsidiaries. Our non-U.S. subsidiaries generally sell their products and services in the local currency, but obtain a significant amount of their products from our manufacturing facilities located elsewhere, primarily the United States, Canada and Europe. Significant changes in the relevant exchange rates could adversely affect our margins on foreign sales of products. Our non-U.S. subsidiaries incur most of their expenses (other than intercompany expenses) in their local functional currency. These currencies include the Canadian Dollar, Euro, British Pound, Russian Ruble, Australian Dollar, South Korean Won, Chinese Renminbi, Indian Rupee, Mexican Peso, and Japanese Yen.

During YTD 2023, our largest exposures to foreign exchange rates consisted primarily of the Canadian Dollar and the Euro against the U.S. dollar. The market risk related to the foreign currency exchange rates is measured by estimating the potential impact of a 10% change in the value of the U.S. dollar relative to the local currency exchange rates. The rates used to perform this analysis were based on a weighted average of the market rates in effect during the relevant period. A 10% appreciation of the U.S. dollar relative to the Canadian dollar would result in a net decrease in net income of \$0.9 million for YTD 2023. Conversely, a 10% depreciation of the U.S. dollar relative to the Canadian dollar would result in a net increase in net income of \$1.1 million for YTD 2023. A 10% appreciation of the U.S. dollar relative to the Euro would result in a negligible decrease in net income. Conversely, a 10% depreciation of the U.S. dollar relative to the Euro would result in a negligible net increase in net income for YTD 2023. Given a net loss for our Russian affiliate in YTD 2023, a 10% appreciation of the U.S. dollar relative to the Ruble would result in a \$0.2 million increase in net income. Conversely, a 10% depreciation of the U.S. dollar relative to the Ruble would result in a net decrease in net income of approximately \$0.3 million for YTD 2023.

The geographic areas outside the United States in which we operate are generally not considered to be highly inflationary. Nonetheless, these foreign operations are sensitive to fluctuations in currency exchange rates arising from, among other things, certain intercompany transactions that are generally denominated in U.S. dollars rather than their respective functional currencies. The net impact of foreign currency transactions on our condensed consolidated statements of operations and comprehensive income/(loss) were losses of \$(0.3) million and \$(0.7) million in YTD 2023 and YTD 2022, respectively.

As of September 30, 2022, we had approximately \$3.3 million in notional forward contracts to reduce our exposure to foreign currency exchange rate fluctuations with respect to currencies. These forward contracts were in place to offset in part the foreign currency exchange risk to intercompany payables due from our foreign operations to be settled in U.S. dollars. See Note 3, "Fair Value Measurements" to our unaudited condensed financial statements included above in Item 1. Financial Statements (Unaudited) of this quarterly report for further information regarding our foreign currency forward contracts.

We estimate that our sales were negatively impacted by \$6.0 million in YTD 2023 when compared to foreign exchange translation rates that were in effect in YTD 2022. Foreign currency impact on revenue is calculated by comparing actual current period revenue in U.S. dollars to the theoretical U.S. Dollar revenue we would have achieved based on the weighted-average foreign exchange rates in effect in the comparative prior periods for all applicable foreign currencies. At each balance sheet date, we translate our assets and liabilities denominated in foreign currency to U.S. dollars. The balances of our foreign equity accounts are translated at their historical value. The difference between the current rates and the historical rates are posted to our currency translation account and reflected in the shareholders' equity section of our condensed consolidated balance sheets. The unrealized effects of foreign currency translations were losses of \$23.0 million and \$3.4 million in YTD 2023 and YTD 2022, respectively. The comparative decrease in YTD 2023 foreign currency translation losses is primarily due to the weakening of the Canadian dollar and Euro relative to the U.S. dollar as compared to YTD 2022. Foreign currency translation gains or losses are reported as part of comprehensive income or loss in the condensed consolidated statements of operations and comprehensive income/(loss). Foreign currency transactions gains and losses are included in net income or loss as part of other income and expense in the condensed consolidated statements of operations and comprehensive income/(loss).

Interest rate risk and foreign currency risk relating to debt. Borrowings under our Term Loan Facilities and the Revolving Credit Facility incur interest expense that is variable in relation to the LIBOR and CDOR rate. As of September 30, 2022, we had \$114.5 million of outstanding principal under our Term Loan Facilities and \$29.0 million in borrowings under the Revolving Credit Facility. The interest rates on the Term Loan Facilities on September 30, 2022 were 4.93% for the Canadian Term Loan Facility, 3.81% for the U.S. Term Loan Facility, and 3.77% for the U.S. Revolving Credit Facility. Based on the outstanding borrowings, a 1% change in the interest rate would result in a \$1.4 million increase or decrease, as applicable, in our annual interest expense.

Commodity price risk. We use various commodity-based raw materials in our manufacturing processes. Generally, we acquire such components at market prices and do not typically enter into long-term purchase commitments with suppliers or hedging instruments to mitigate commodity price risk. As a result, we are subject to market risks related to changes in commodity prices and supplies of key components of our products. Raw material costs have been stable historically; however, in recent periods we have experienced, and may continue to experience, various shortages in certain raw materials as well as an increase in costs of these materials due to: use of alternate suppliers, higher freight costs, increased lead times, and expedited shipping. We cannot provide any assurance that we will continue to mitigate temporary raw material shortages or be able to

pass along such cost increases, including the potential impacts of tariffs or supply chain challenges, to our customers in the future, and if we are unable to do so, our results of operations may be adversely affected.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (the “Exchange Act”) as of the end of the period covered by this quarterly report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, these disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company’s internal control over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II
OTHER INFORMATION

Item 1. Legal Proceedings

See Note 10, "Commitments and Contingencies," to our unaudited condensed consolidated financial statements included above in Part I, Item 1. Financial Statements (Unaudited) of this quarterly report, which is hereby incorporated by reference into this Item 1.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended March 31, 2022, filed with the SEC on May 26, 2022.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of our equity securities during the three months ended September 30, 2022.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits

See Exhibit Index below for a list of exhibits filed as part of this quarterly report, which Exhibit Index is incorporated herein by reference.

THERMON GROUP HOLDINGS, INC. (registrant)

By: /s/ Kevin Fox
Name: Kevin Fox
Title: Senior Vice President, Chief Financial Officer
(Principal Financial and Accounting Officer)

**CERTIFICATION PURSUANT TO RULE 13a-14(a) AND RULE 15d-14(a)
OF THE SECURITIES EXCHANGE ACT OF 1934**

I, Bruce Thames, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Thermon Group Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO RULE 13a-14(a) AND RULE 15d-14(a)
OF THE SECURITIES EXCHANGE ACT OF 1934**

I, Kevin Fox, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Thermon Group Holdings, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
